Errata - Corrige

Completely Monotone Families of Solutions of n -th Order Linear Differential Equations and Infinitely Divisible Distributions.

PHILIP HARTMAN

Ser. IV, vol. III (1976), pp. 267-287.

In Section 3. – Proof of Theorem 1.1(a), $x = X^j(t, s, \tau, \lambda)$ in the line following (3.3) should be $x = X_k^j(t, s, \tau, \lambda)$ add its definition (3.4) should be

$$(3.4) \quad \begin{cases} [D^{i-1} X_k^j]_{t=s} = 0 & \text{if } 1 \leq i \leq n-k , \\ [D^{i-1} X_k^j]_{t=\tau} = \delta_{jk} & \text{if } 1 \leq i, j \leq k . \end{cases}$$

Replace X^j by X_{n-k}^i in (3.5) and by X_k^j in (3.6).

At the end of Proposition 3.1, add « where $X^k = X_k^k$ ».

Delete the Remark following Proposition 3.2.
